

Newsletter No. 1 - educational project entitled "Key competences for people 50+".

Deinde sp. z o. o. together with three partner institutions from the adult education sector from France, Spain and Norway is implementing an educational project entitled "Key competences for people 50+". The project is implemented under the Erasmus + Programme, Action KA220-ADU – Strategic Partnerships.

The main goal of the project is to increase access to key competences, taking into account the specificity of people over 50.

The specific objectives of the project are:

- Expanding access to individualized education programs for people over 50 years of age, taking into account the specificity and needs of these people.
- Supporting the development of key competences among people over 50 in the countries participating in the project.
- Strengthening the competences of trainers and organisers of adult education in the EU by providing them with high-quality free materials supporting the process of educating people over 50 in the field of key competences.

A number of activities are planned in the project, which include:

- Methodology of training courses „Key competences for people aged 50+”,
- 4 modular key competences training courses that can be delivered together or separately as independent course units,
- Guidelines for trainers/organisers of education in the field of implementing and conducting key competences courses for people aged 50+.

The planned results of intellectual work include:

- Methodology of training courses "Key competences for people 50+".
- 4 modular training courses in key competences that can be implemented together or separately as independent course units.
- Guidelines for trainers/organisers of education in the implementation and conduct of courses in the field of key competences for people 50+.

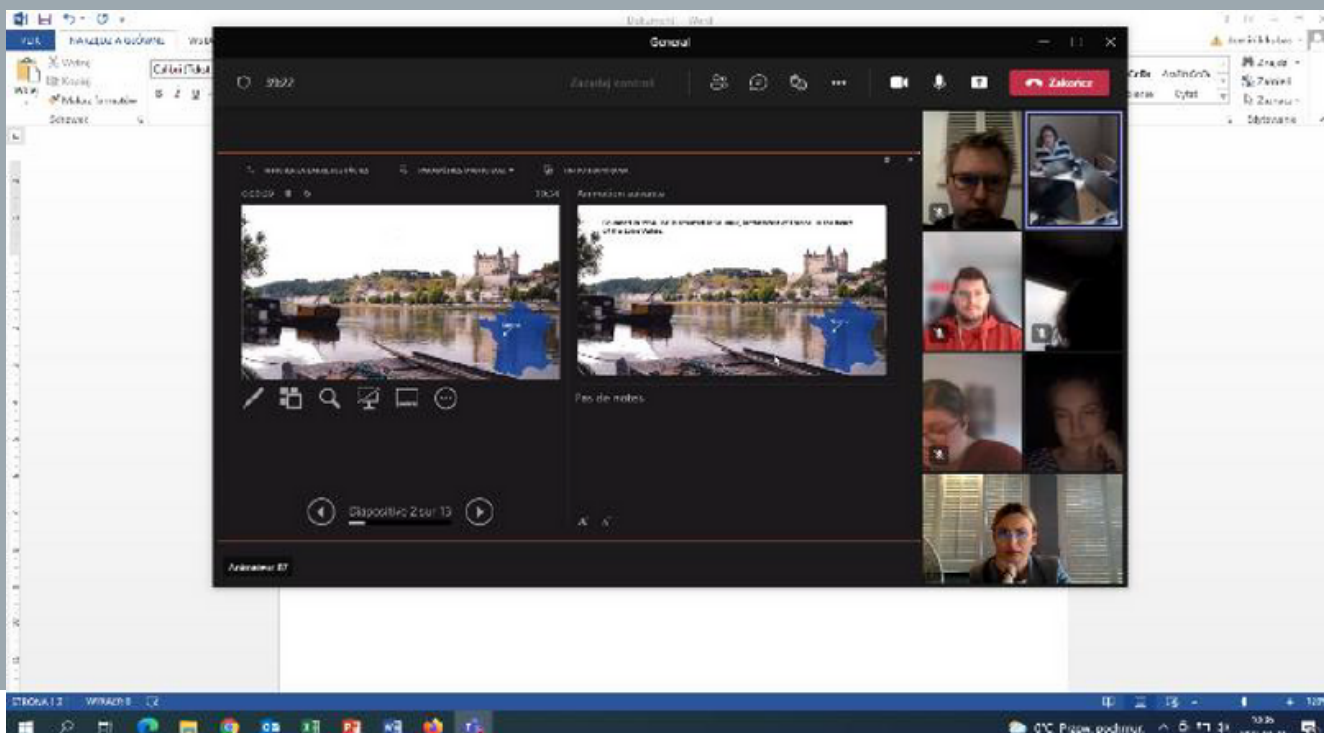

The results will focus on four of the eight key competences:

- Ability to understand and create information,
- Digital competences,
- Personal, social and learning to learn competences,
- Entrepreneurial competences.

The project is implemented in partnership with 4 adult education institutions:

1. Deinde sp. z o.o. (Poland) – Consortium Leader (www.deinde.pl),
2. Institut Saumurois de la Communication (France) – Partner (www.isc-saumur.fr),
3. INERCIA DIGITAL SL (Spain) – Partner (www.inerciadigital.com),
4. Stiftelsen Mangfold i arbeidslivet (Norway) – Partner (www.mangfold.no).

Selected activities carried out so far as part of the project:

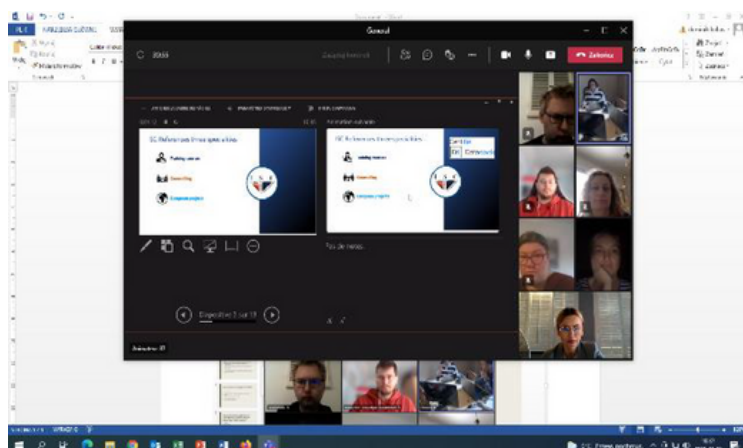

1. On March 1-2, 2022, the inaugural online meeting was held, hosted by Deinde sp. z o. o.

The meeting was attended by a total of eight representatives of partner institutions constituting the management and substantive staff of individual institutions, i.e. managers, trainers, researchers, career advisors.

During the meeting, the participants presented their institutions, presented preliminary problem situations in the project area. Good practices in the field of adult education, especially at the age of 50+ and the exchange of experience between the staff of partner institutions were presented.

During the meeting, coordination activities, such as the presentation of the project, schedule, activities and budget were carried out. The partners made arrangements for work for the coming months, discussed the principles of communication and cooperation.

2. The meeting was followed by research work in the field of analysis of existing data on the state of education of key competences and educational needs of adults, including people 50+ in partner countries (Poland, France, Spain, Norway) and in the European Union. Researchers/trainers from individual partner institutions were involved in the research work. As a result of the work carried out, five Reports were created (in national languages and in English).

3. On June 29, 2022, a transnational partnership meeting was held in Saumur, France, organized by the Institut Saumurois de la Communication. The meeting was attended by a total of 10 representatives of partner institutions.

During the meeting, representatives of individual institutions presented the results of the project work carried out so far:

- Reports on research on existing data on key competences, including in the context of 50+ people in Poland, Spain, France, Norway and the European Union.

The partners discussed and planned work including further project activities aimed at developing four courses in the field of: Ability to understand and create information (Stiftelsen Mangfold and arbeidslivet), Digital Competences (Inercia Digital SL), Personal, social and learning to learn competences (Institut Saumurois de la Communication), Entrepreneurial competences (Deinde sp. z o. o.).

4. The next stage of work includes activities related to the development by individual partner institutions of four courses in the field of key competences addressed to the target group of people aged 50+.
